Education

BCA
Kerala University , CHMM College For Advanced Studies, Chavarcode

2018-21

MCA
Kerala University , CHMM College For Advanced Studies, Chavarcode

2021-23

Certification

NPTEL Certificate

Internship Certificate - Softzane Solutions

Languages

English, Malayalam, Hindi, Tamil

Objective

A passionate and results-driven MCA graduate with hands-on experience in full-stack web development, specializing in the MERN stack (MongoDB, Express.js, React.js, Node.js). Adept at developing scalable applications, collaborating with cross-functional teams, and implementing innovative solutions. Seeking an opportunity in the UAE to contribute expertise in software development, project management, and cloud technologies.

Technical Skills

Programming & Software Development:
- Languages: Java, JavaScript, TypeScript, C, C++, SQL, HTML, CSS
- Frameworks & Libraries: MERN Stack (MongoDB, Express.js, React.js, Node.js), Next.js, Redux, Tailwind CSS, Bootstrap, Vite, React Bootstrap
- Web Development: Full-stack development, Responsive UI/UX, API Development, Frontend & Backend Integration

Database Management:
- Databases: MongoDB, MySQL, Firebase
- Authentication: JWT, OAuth, Firebase Authentication
- CI/CD Pipelines: GitHub Actions

Tools & Technologies:
- Version Control & Deployment: Git, GitHub, Bitbucket, CI/CD
- Development Tools: Visual Studio Code, Postman, Figma
- Operating Systems: Windows, Linux (Ubuntu)
- Project Management: Agile, Scrum, Jira, Trello

Office Administration & Documentation:
- IT Asset Management, Software Installation & License Management
- Technical Report Writing, Helpdesk Support & Ticket Management
- Office 365, Google Workspace

Experience

Full-Stack Developer (MERN Stack)
Softzane Solutions, Kollam, Kerala, India | Sep 2023 – Sep 2024

- Developed scalable, high-performance web applications using MongoDB, Express.js, React.js, and Node.js (MERN Stack).
- Designed and implemented RESTful APIs, GraphQL APIs, and microservices architecture for efficient backend operations.
- Integrated JWT authentication and OAuth-based login systems for secure user management.
- Utilized React Hooks, Redux Toolkit, and Context API to manage complex frontend state.
- Developed responsive UI/UX with Tailwind CSS, Material-UI, and Bootstrap for optimized performance across devices.
- Implemented real-time features using WebSockets and Socket.io for chat, notifications, and live updates.
- Managed cloud-based MongoDB Atlas database, optimized queries using aggregation pipelines and indexing.
- Deployed applications on AWS, Vercel, and Heroku, ensuring scalability, security, and high availability.
- Integrated third-party APIs (Stripe, PayPal, Twilio, Firebase) for payment processing, SMS verification, and push notifications.
- Automated deployment and testing using GitHub Actions, Docker, and Jenkins to enhance CI/CD workflows.
- Led agile development with Scrum methodologies, participating in daily stand-ups, sprint planning, and retrospectives.
- Conducted code reviews, debugging, and performance optimization, ensuring maintainable, efficient codebases.
- Provided technical mentorship to junior developers, conducted training sessions on best coding practices.
- Assisted in recruitment processes, onboarding new employees, and maintaining HR records.

Projects

Online Learning Platform
- ◆ Technologies: React.js, Node.js, MongoDB, AWS S3, JWT, WebSockets
- Developed a feature-rich learning platform where instructors can upload courses, and students can enroll, watch video lectures, take quizzes, and track progress.
- Integrated real-time chat and discussion forums for student-teacher interaction.
- Implemented role-based access control (RBAC) for admins, instructors, and students.

Flipkart Clone (E-Commerce Platform)
- ◆ Technologies: React.js, Redux, Node.js, MongoDB, Stripe API, Firebase Authentication
- Built a fully functional e-commerce website with features including product listings, shopping cart, user authentication, and payment gateway integration.
- Optimized SEO, performance, and responsive design to enhance user experience.
- Implemented secure checkout with Stripe payment gateway.

Social Media Platform
- ◆ Technologies: React.js, Next.js, Node.js, MongoDB, WebSockets, JWT, Tailwind CSS
- Developed a real-time social media web application with user authentication, post creation, likes/comments, and chat functionality.
- Integrated WebSockets (Socket.io) for real-time messaging and notifications.
- Optimized backend performance with MongoDB indexing and caching strategies.
